An Employee-Owned Company

Technology Solutions

that move your business forward.

DESIGN

CC&N delivers integrated communication connectivity solutions that apply to all businesses. Whatever your needs, we will design secure, business-critical, scalable communications technology strategies to connect people, knowledge and networks.

IMPLEMENT

Once we have designed solutions tailored to your unique needs, CC&N will help implement these communication technologies into your business processes. The result is more productive employees, improved operational efficiency and accelerated performance for increased customer satisfaction.

MANAGE

Managing complex communications networks can be a significant challenge for companies of all sizes. With the intelligence to diagnose, analyze and respond to any technology or communications issue, our professional technical support staff can manage your communications technologies and resources onsite or remotely to ensure your company's success.

DESIGN

IMPLEMENT

MANAGE

Solutions that enable you to communicate, access and share in ways that accelerate your business.

CC&N is a leader in technology, communications and connectivity solutions. Our eight centers of expertise provide innovative solutions for data network and voice communication technologies, cabling infrastructure, wireless solutions, building security, network monitoring, mobile device management and managed staffing options.

We are passionate about providing flexible business technologies that enable customers to reshape their approach to the transport, access and exchange of business information in smarter and faster ways.

Whether you are a large enterprise or a small to mid-sized business, your data, voice and video network is essential to day-to-day operations and absolute business success. So it goes without saying that a trusted, knowledgeable communications technology partner is crucial to driving strategic relationships and accelerating your profitability.

Our seal of commitment

is your assurance that CC&N will Design, Implement and Manage custom solutions that are reliable, cost-efficient and founded in best practices. We integrate leading technologies to help drive performance and focus on accelerating your business results.
