

Accelerated Results Solutions

Moreland Medical Laboratories

Moreland Medical Laboratories is a vital part of the daily patient support for Moreland Medical Center as well as committed to providing timely and reliable lab services to the greater healthcare environment in Waukesha and surrounding counties. CC&N worked with IT Manager, Kathy Williams, to upgrade their IT systems and environment, thus enabling Moreland Medical Labs to offer the most responsive results to physicians and patients possible.

Kathy stated, “CC&N has worked with us to take our data network to a new level of performance and reliability by providing consulting services, equipment and technical support. CC&N has helped us take a strategic view of changes as we move to an efficient, reliable and easy to manage network. By optimizing the configuration on our network, upgrading specific devices, and re-designing our data center, CC&N has demonstrated their commitment to helping us serve users and patients better. CC&N provides access to support at all levels, and my experience with them demonstrates a staff that is educated in network applications as well as intuitive in diagnosing and problem solving. I am able to rely on their expertise and their partnership.”
